Summary

I completed a 3-month internship followed by 7 months as a full-time UI/UX Designer and Web Developer at Algofusion Technologies India Private Limited. During my internship, I honed my skills in designing user-friendly interfaces and creating responsive websites. As a full-time employee, I translated designs into functional web pages using HTML, CSS, JavaScript, and Bootstrap, working with JSON data for dynamic content. My role involved collaborating with cross-functional teams, conducting user research, and refining prototypes to deliver optimal user experiences that align with business goals.
